

FERNANDO DE LA TORRE

Software Engineer

SUMMARY

Self-driven, detail-oriented software engineer with a passion for building intuitive user experiences and scalable backend systems. Proven track record of designing and deploying full-stack web applications using React, Node.js, and MongoDB. Experienced with cloud deployment (AWS, Netlify), Git workflows, and Agile team collaboration. Eager to contribute to a globally minded tech company and continue growing in a fast-paced development environment.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

February 2022 - Present

- Collaborated with a team of developers to build modern, responsive full-stack web applications following industry best practices.
- Engineered a custom golf simulator app as part of a 100-hours capstone project, featuring dynamic club selection, custom swing logic, and persistent state using localStorage.
- Deployed projects using AWS and Netlify, leveraging Git for version control and CI/CD tools workflows.
- Developed semantically structured front and back-end components to improve maintainability, accessibility, and scalability.

Frontend Software Engineer | EzTrack Project

February 2026 – March 2026

- Contributed to the frontend components for EzTrack, a web application designed to streamline tool and construction material tracking workflows.
- Built fluid, responsive UI features and implemented client-side routing using React.js and TypeScript to improve app navigation and user experience.
- Collaborated in an Agile-style team environment using structured GitHub workflows, code reviews, and branch management.
- Applied modern JavaScript and React development practices to build clean, maintainable, and reusable components.

Open-Source Contributor | Remote

Software Engineer

June 2022 - Present

- Contributed to open-source repositories by refactoring legacy code, fixing critical bugs, and enhancing functionality.
- Participated in pull request reviews and technical discussions, improving collaborative development and code quality.
